MC Murmurs

"The Mass Culture initiative is really important because you are bringing together a conversation about research. Given the size of the country, we are isolated from one another and working in our own little silos. I know for myself I've often got so many projects open on my desk it's difficult for me to reach out when I hear about a study that interests me.

The role that Mass Culture is playing to identify the importance of research, what people are finding, and an opportunity to hear about things that we wouldn't otherwise know about is important. As a researcher, I can't take that on myself."

- **Margo Charlton**
